

LARP Adventures Diversity Statement

Judgment free diversity and inclusion are more than just buzzwords or boxes to check, we believe they are essential.

Gender identity, race/ethnicity, generation, sexual orientation, national status, and people that are differently abled all come together to create cognitive diversity. A combination of these unique traits working in unison can help overcome challenges and achieve goals and create a vibrant experience. We believe diversity is a necessary element for innovation and team building.

We strive to create an inclusive and safe environment for all, free of "real" danger, abuse, threats, unwanted behavior, and harassment.

Please do keep in mind we play a game and work to create a virtual world that includes mock violence and some adult content and concepts. People may be acting aggressively in character and if you participate in the combat portions of the game you will be chased around in the woods by people with foam sticks.
